FULL STACK ENGINEER

Highly skilled Senior Full-Stack Engineer with 10 years of experience in designing, developing, and deploying high-performance web and mobile applications. Extensive expertise in both React and React Native, with a strong ability to deliver cross-platform mobile applications and scalable web solutions. Proven track record in delivering user-centric solutions using modern technologies like React, Node.js, Laravel, and React Native. Experienced in leading cross-functional teams, optimizing system performance, and driving business outcomes through technical innovation. Passionate about mentoring junior developers, leveraging emerging technologies, and continuously improving development processes.

PROFESSIONAL EXPERIENCE

Botmer International
Senior Full Stack Engineer   **Sep 2022 – Present**

- **Led Full SaaS Platform Overhaul:** Spearheaded the development of a comprehensive SaaS platform, driving a 40% increase in user engagement and 35% improvement in retention by introducing intuitive features and optimizing UI/UX.
- **Performance Optimization:** Reduced server response times by 40% and enhanced platform scalability by refactoring core infrastructure, supporting growth to 10,000+ active users.
- **React Native Mobile Development:** Led the development of a cross-platform mobile app using React Native, reducing time-to-market by 30% while maintaining a native-like experience for iOS and Android users.
- **API Architecture & Integration:** Architected robust RESTful APIs, enabling seamless integration with third-party services and ensuring smooth data exchanges, enhancing system interoperability.
- **Collaborative Leadership:** Led cross-functional teams in delivering high-impact features ahead of schedule, improving project delivery efficiency by 25% and meeting client requirements with a focus on business growth.
- **Cloud and Infrastructure Optimization:** Spearheaded the migration to a more efficient cloud infrastructure (AWS), reducing operational costs by 30% and improving system uptime.

Right Solutions   **2019 – 2022**
Senior FullStackEngineer

- **E-Commerce Platform Transformation**: Overhauled a legacy e-commerce platform by integrating cutting-edge technologies, which resulted in a 35% increase in sales and significantly enhanced user experience with optimized UI components.
- **Security & Compliance Enhancements:** Led the implementation of advanced security protocols (SSL/TLS, OAuth, GDPR), ensuring 100% compliance with international standards and securing customer data across platforms.
- **Data Analytics & Reporting Platform**: Designed and developed a real-time data analytics dashboard, delivering actionable business insights and enabling leadership to make informed decisions, improving operational performance.
- **React Native for E-Commerce App**: Developed and deployed a React Native e-commerce app that streamlined mobile user experiences, contributing to a 20% increase in mobile app downloads and improving sales via mobile platforms.
- **Cloud Migration Leadership**: Managed the transition of the e-commerce platform to AWS, reducing hosting costs by 20% and improving platform reliability through automation and optimized architecture.

Kingdom Vision   **2017 – 2019**
Senior Full Stack Engineer

- **B2B Application Enhancements:** Revamped a B2B application by incorporating real-time data analytics and a scalable architecture, leading to a 25% improvement in client satisfaction and a 20% increase in business efficiency.
- **React Native for Client-Facing App:** Developed a React Native mobile app for clients that enhanced user interaction with key services, reducing customer service response times by 40%.
- **Communication System Integration:** Integrated Twilio API to streamline customer support systems, reducing response time by 50% and increasing resolution rates.
- **Consulting & Process Optimization:** Provided consultancy on architecture and development best practices, significantly improving team efficiency and cutting down development time by 15% for new feature rollouts.

Poly Web Tech   **2015 – 2017**
SeniorFull StackEngineer
- **CMS & E-Commerce Solutions**: Developed custom content management and e-commerce systems, boosting online sales by 15% and enhancing the content management process for clients.
- **API Integration & Optimization**: Integrated third-party APIs, enabling enhanced payment and shipping functionality, thus improving customer satisfaction and reducing operational overhead.

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, PHP, SQL
- **Frontend:** React, React Native, Angular, Vue.js, HTML5, CSS3, Bootstrap, Tailwind
- **Backend:** Node.js, Laravel, Express.js, GraphQL, RESTful APIs
- **DevOps & CI/CD:** Docker, Jenkins, Git, Kubernetes, AWS, Azure
- **Databases:** MySQL, MongoDB, PostgreSQL, Redis
- **Cloud Platforms:** AWS, Google Cloud Platform, Azure
- **Tools & Technologies:** Webpack, Redux, Twilio, Stripe, OAuth, Jenkins, SOAP, GraphQL

KEY ACCOMPLISHMENTS & PROJECTS

- **SaaS Platform** Development at Lime Software Logics: Reduced latency by 40% and improved user retention by introducing predictive analytics and enhancing UX/UI design.
- **Mobile App Development with React Native at Right Solutions:** Developed a cross-platform React Native mobile app for e-commerce that boosted mobile sales by 25%.
- **Security & Data Protection at Right Solutions:** Enhanced security measures to meet GDPR and SOC 2 compliance, protecting over 5 million customer records.
- **Cloud Transition Leadership:** Successfully led cloud migrations for two enterprise clients, reducing infrastructure costs by 20-30% and improving platform scalability and uptime.

SOFT SKILLS & LEADERSHIP

- Excellent leadership skills with the ability to mentor and guide junior developers
- Strong problem-solving mindset and the ability to deliver high-quality software under tight deadlines
- Effective communicator, able to convey complex technical concepts to non-technical stakeholders
- Focused on continuous learning and staying up-to-date with industry trends
